### *Verifying this Certificate*

Anyone may verify this certificate by going to [www.bloodbornecertification.com](http://www.bloodbornecertification.com), clicking the 'Verifier' menu link and entering the certificate code.

### *A Note on Workplace Specific Training*

*The training course has provided you with the knowledge and skills to protect yourself and others when working with or around Bloodborne Pathogens and Other Potentially Infectious Materials. There may be additional information and training that you require in order to fully protect yourself from specific hazards that exist within your workplace. Your employer is required to evaluate and determine if additional workplace specific training is required and also to ensure that you receive that training prior to being exposed to any hazards that could potentially result in you becoming ill or injured.*
